

CACI to Demonstrate Multi-Domain Solutions for Integrated Operations at Air Force Association's Air, Space and Cyber Conference

Arlington, Va., September 12, 2018 - CACI International Inc ([NYSE: CACI](#)) will demonstrate several innovations that enable integrated, multi-domain operations at the Air Force Association's Air, Space & Cyber Conference, which will be held at the Gaylord Convention Center in National Harbor, MD, from September 17-19, 2018.

At the summit, CACI subject matter experts will demonstrate a Deep Learning framework that speeds object identification within massive data sets. Other demonstrations will include a web-based space battle management command and control system for integrated operations across air, space, and cyberspace; a suite of modular, software-defined C-UAS solutions that are capable of producing electronic warfare effects; and solutions for cross-domain cloud migration with best-of-breed cyber defense.

For more information on CACI's Air Force solutions, visit us at booth 1227 at the conference or at www.caci.com/afa18.
