

CACI's SkyTracker™ Technology Suite Named “Best-In-Class” In Washington Technology's Innovator Awards

Arlington, Va., November 26, 2018 - CACI International Inc ([NYSE:CACI](#)) announced today that its SkyTracker™ Technology Suite was named “Best-in-Class” among Industry Innovators at *Washington Technology's* [Government Innovation Awards](#). The Industry Innovator Awards recognize private sector companies who play a vital role in the government IT community, using ingenuity and creativity to deliver high-value solutions that address their customers' critical challenges.

CACI's SkyTracker products, which include the CORIAN™ and AWAIR™ systems, use radio communications between small unmanned aircraft systems and their controllers to detect, identify, and geolocate drones and their operators. The software-defined systems are modular and scalable and can easily be integrated into other technologies and command and control systems to identify drones with potentially harmful intent.

[Ken Asbury](#), CACI's President and Chief Executive Officer, said, “CACI is an industry leader in developing, deploying, and integrating sophisticated counter-unmanned aircraft systems technologies and solutions. Our innovative and integrated system-of-systems approach, combined with our mitigation techniques, provides solutions necessary to counter evolving threats and protect high-value assets, the national airspace, and national security.”

CACI provides information solutions and services in support of national security missions and government transformation for Intelligence, Defense, and Federal Civilian customers. A *Fortune* World's Most Admired Company, CACI is a member of the *Fortune* 1000 Largest Companies, the Russell 2000 Index, and the S&P SmallCap600 Index. CACI's sustained commitment to ethics and integrity defines its corporate culture and drives its success. With approximately 20,000 employees worldwide, CACI provides dynamic career opportunities for military veterans and industry professionals to support the nation's most critical missions.
