

CACI to Showcase Healthcare IT Innovations at HIMSS Annual Conference & Exhibition

Solutions for Modernizing Systems, Informing Decisions, and Improving Patient Outcomes

Arlington, Va., February 17, 2017 - CACI International Inc ([NYSE: CACI](#)) will showcase solutions for modernizing healthcare systems, informing medical decisions, and improving patient outcomes at the [Healthcare Information and Management Systems Society \(HIMSS\) Annual Conference & Exhibition](#) on February 19-23 at the Orange County Convention Center in Orlando, Fla. This industry-leading conference brings together more than 40,000 health IT professionals, clinicians, executives, and vendors from around the world.

In keeping with this year's conference theme, "Where the Brightest Minds in Health and IT Meet," CACI will showcase innovative solutions that support federal customers with theater medical operations and medical logistics capabilities, healthcare modernization, and advanced healthcare data analytics capabilities. These solutions include modernized, interoperable, and secure health IT systems; ensuring patient data integrity and privacy; clinical data and population health analysis; and medical logistics for worldwide readiness.

Additionally, CACI's Chief Medical Officer, Brig. Gen. (Ret.) Dr. Klaus Schafer will discuss the future of personalized medicine during his presentation at CACI's booth on Monday, February 20 and Tuesday, February 21 at 2:00 p.m. Various federal agencies have initiatives underway aimed to advance personalized and precision medicine to improve medical treatments, speed therapeutic development, and attempt to improve the way we deliver care to each patient in a very personalized manner through genomics. The presentation will focus on the need to modernize the healthcare system to support the collection and management of large amounts of data and electronic health information, achieve interoperability, ensure data security and integrity, and transform the delivery of care to patients. CACI supports nationwide initiatives to integrate health systems to facilitate data sharing. Dr. Schafer has over 30 years of leadership experience, having held senior positions in government and industry. His government experiences include senior-level strategy and programmatic management of the Department of Defense's \$1 billion annual chemical and biological defense program as the Deputy Assistant to the Secretary of Defense, for chemistry/bio defense. He retired from the Air Force as the Assistant Surgeon General for Medical Readiness, Science and Technology.
