

CACI Showcases Technology to Achieve Decision Dominance for the U.S. Army

CACI's innovation will be on display at the AUSA Annual Meeting in Hall C, booth 3525 from Oct. 11-13 at the Walter E. Washington Convention Center in Washington, D.C.

RESTON, Va.--(BUSINESS WIRE)-- CACI International Inc ([NYSE: CACI](#)) will showcase its award-winning technologies, informed by mission expertise, to advance the U.S. Army's decision dominance in all domains during AUSA's 2021 Annual Meeting and Exposition from Oct. 11-13, 2021 at the Walter E. Washington Convention Center in Washington, D.C., Hall C Booth 3525.

CACI is showcasing its platform integration expertise and its SMART portfolio that increases the mobility and survivability of the next generation command post. The company's resilient, high-capacity communications suite keeps the commander connected while on the move to conduct continuous JADC2. Two new counter-unmanned aircraft systems (C-UAS) and a collection of spectrum operations technologies reduce the adversary's ability to target the command post. Additional innovations on display from CACI's SMART portfolio offer advanced tools for executing operations in all domains.

CACI will also demonstrate how its experts extend enterprise technologies to the tactical edge of operations to provide unified applications and services from the Fort to the Field. A secure bring-your-own-device (BYOD) suite enables "work from anywhere" through solutions such as SteelBox®, cloud workspaces, and Zero Trust Architectures. CACI will share its industry-leading "CyberSafe" Type 1 and commercial- solutions-for-classified (CSfC) trusted mobile platforms that offer secure handheld mission flexibility.
