

CACI Secures \$526 Million Task Order with U.S. Army for Network Modernization and Sustainment

RESTON, Va.--(BUSINESS WIRE)-- CACI International Inc ([NYSE: CACI](#)) announced today that it was selected for a five-year, single-award, task order worth up to \$526 million to provide network modernization and sustainment technology to the U.S. Army Program Executive Office Command Control Communications-Tactical (PEO-C3T). The Global Enterprise Network Modernization (GENMOD) task order is part of the Alliant 2 indefinite delivery, indefinite quantity (IDIQ) contract vehicle.

“Today, more than ever, it is imperative to deliver the base of the future by moving the Army to a more unified network through an advanced digital infrastructure for soldiers,” said [John Mengucci](#), CACI President and Chief Executive Officer. “CACI has a strong track record modernizing networks with software-defined technology, increasing resiliency through design and automation, and agility and speed in the field with our global presence”.

Under GENMOD, CACI will deliver a one-stop-shop for vertical integration to create a robust, reliable, and high-speed network modernizing the Army’s enterprise IT infrastructure and facilities across the Pacific and Southwest Asia. CACI will also integrate technologies to transform classified and unclassified networks, audio and voice, data fabric, virtual desktop infrastructure (VDI) storage, commercial solutions for classified (CSfC) for secure and flexible remote access, and command center capabilities.
