

CACI Receives Two DoD Nunn-Perry Awards for Advancing Technology through its Small Business Protégés

RESTON, Va.--(BUSINESS WIRE)-- CACI International Inc ([NYSE: CACI](#)) announced today that it won two Nunn-Perry Awards for excellence as part of the Department of Defense (DoD) Mentor Protégé Program. These recognitions mark the sixth and seventh consecutive Nunn-Perry awards the company has received since 2014. This prestigious honor recognizes CACI's collaboration with EXPANSIA, a service-disabled, veteran-owned small business, and Mayvin, a woman-owned small business management consulting firm that provides a wide range of professional and technical services.

"We are proud to support and mentor these small businesses, helping them grow and succeed as we work to advance cutting-edge innovation and exceptional results across the DoD and federal government," said [John Mengucci](#), CACI President and CEO. "These partnerships further demonstrate CACI's ability to scale with the most talented partners and provide the best possible support to our nation's warfighters."

The DoD Mentor Protégé Program was established in 1990 and the award is named for the contributions of Senator Sam Nunn and former Secretary of Defense William Perry, both of whom played critical roles in the implementation of the DoD Mentor Protégé Program. The program has since expanded, providing developmental assistance to Women-Owned Small Businesses, Service-Disabled Veteran-Owned Small Businesses, and others.

CACI and EXPANSIA have cultivated an enduring collaboration beginning in 2020, which has resulted in 94% employee growth and EXPANSIA has primed and won more than \$33 million in DoD opportunities. Through this partnership, CACI has helped EXPANSIA to mature its solutions in Agile software development, secure cloud infrastructures, and digital materiel management.

Since 2021, CACI has helped Mayvin to expand into five new federal customers, employee headcount grew 132.5%, and revenue increased by more than \$40 million. Mayvin has delivered program management, engineering and mission support, and IT infrastructure services to various government agencies, including the U.S. Army, Department of Justice, Department of Homeland Security, and DoD.

CACI also partnered with Morgan State University, a public historically Black research university in Baltimore, Maryland, to provide annual strategic planning as well as Capability Maturity Model Integration (CMMI) and International Organization for Standardization (ISO) implementation services to improve their performance.

About EXPANSIA

EXPANSIA is a service-disabled veteran-owned company that empowers organizations to deploy technology faster with data, people, and ecosystems. As experts in continuous-delivery methods that drive digital adoption, we are dedicated to innovation, efficiency, and technology that benefit warfighter mission outcomes. EXPANSIA specializes in integration, automation, and sustainment modernization through technology-enabled delivery models, digital engineering, and cloud-ready solutions. In 2024, we are celebrating 10 years of success. Visit www.EXPANSIAGroup.com.
