

# CACI Achieves Amazon Web Services Managed Service Provider Status for its Secure, Compliant Hybrid Cloud Solutions

RESTON, Va.--(BUSINESS WIRE)-- CACI International Inc ([NYSE: CACI](#)) announced today that it has achieved Amazon Web Services (AWS) Managed Service Provider (MSP) status. This latest recognition adds to CACI's current arsenal of technical and business accomplishments achieved through precise hybrid cloud execution and robust qualifications, uniting edge-to-cloud delivery with audited 24/7 operations for mission workloads.

"Transforming how our customers work takes bold, forward leaning investments to stay ahead of our adversaries and deliver the technology our customers' need for mission success," said [Jason Bales](#), CACI Senior Vice President and Chief Technology Officer. "Our multi-year collaboration with AWS is evidence of CACI's position to bring commercial technology forward into the mission applications domain, all while delivering software-defined capabilities that achieve and maintain the highest security accreditations in the cloud at commercial speed."

CACI's robust technologies, such as [Altitude™](#) and [SHIFT™](#), along with its professional expertise, offer secure, compliant cloud solutions that meet our customers' distinct mission objectives. Achieving AWS MSP status further validates CACI's ability to deliver rapid, end-to-end cloud solutions that drive network modernization, advance operational excellence, and ensure mission success.

"This new status, earned after rigorous technical audits, security reviews, and customer success evidence, is proof that CACI delivers secure, compliant, and resilient architectures from on-premises to multi-cloud," continued Bales. "From the enterprise to the edge, CACI uses technology and software to modernize securely, accelerate innovation, and strengthen defense against evolving threats. As a single accountable partner, we deliver the speed, visibility, and confidence our nation needs to operate in today's most complex and demanding environments."

Working with AWS enables better automation and ongoing cost and security optimization for CACI's customers. CACI provides planning, building, migrating, operating, and optimizing mission environments. Customers benefit from cloud environments that are patched, monitored, cost-controlled, and resilient, with measurable SLAs and automated scaling across enclaves and classifications.

CACI delivers:

- **Expedited Authority to Operate (ATO) processes** Utilizing proven templates, comprehensive evidence packages, and advanced automation tailored for U.S. public sector frameworks, ensuring faster and cleaner paths to ATO.
- **Unmatched security and compliance:** AWS MSP status ensures that we are maintaining the highest standards of security and compliance.
- **Optimized cloud solutions:** Customers can now benefit from streamlined cloud solutions that are specifically designed to meet the rigorous demands of the U.S. public sector.

Additional benefits:

- **Enhanced trust and credibility:** Customers have greater confidence in CACI's cloud services, knowing they are backed by AWS security protocols and compliance frameworks.
- **Improved efficiency:** The use of automated processes and pre-approved templates reduces the time and effort required to achieve ATO, allowing customers to focus on their core missions.
- **Superior support:** CACI's expertise in U.S. public sector frameworks ensures that customers receive tailored support and solutions that align with their specific needs and regulations.
